

Sprint 3 Report

Product: TasteBytes

Team Name: TasteBytes

Sprint Start Date: 5/20/17

Sprint End Date: 6/1/17

Revision Number: 1

Revision Date: 6/1/17

Actions to stop doing:

- We did everything perfectly. Good work.

Actions to start doing:

- Start a new project, this one was done perfectly.
- If starting a new project, consider better organization of code from the beginning.

Actions to keep doing:

- Scrum and work meetings.
- Keeping the scrum board up to date.
- Keeping the documents up to date.

Work completed:

- As a user, I want the settings page to make changes on the profile page.
- As a user, I want to easily understand the product via their homepage.
- As a user, I want to parse through the menu database and insert that information into a menu template.
- As a user, I want to be able to view menus I have created in a nice presentable form.

Work not completed:

- No database rules set up.
- Tables don't have color based on time seated.
- Menu does not have a downloadable version, however it is viewable on the main profile page.

Work completion rate:

- User stories completed: 4/4
- Total number of estimated work hours: 100 hours
- Total number of days in sprint: 14
