

Sprint 1 Report

Product: TasteBytes

Team Name: TasteBytes

Sprint Start Date: 4/14/17

Sprint End Date: 4/28/17

Revision Number: 1

Revision Date: 5/1/17

Actions to stop doing:

- Stop letting scheduling conflicts slow down progress.
- Creating branches without discussing.

Actions to start doing:

- Give ourselves more tasks because we finished most of them way ahead of schedule.
- Be more specific about who gets which task and when it should be completed by.
- More consistent work schedule meeting times.

Actions to keep doing:

- Quick meetings after most classes to get everyone on the same page.
- Good communication practices.

Work completed:

- As a designer, I want a basic UI in place so the site is pleasing to the eye and easy to navigate.
- As a user I want to easily be able to add and update menu items so I can have correct information about the items.
- As a coder, I would like to structure the backend in a non-redundant method and implement all CRUD operations that the website needs.

Work not completed:

- No updating function out of the CRUD operations.
- No database rules set up.

Work completion rate:

- User stories completed: 3/3
- Total number of estimated work hours: 120 hours
- Total number of days in sprint: 14
